EXTREMELY GOOD AT

- advising clients in the energy storage and renewable energy industries to establish strategic alliances
- oversee project development and commercialise their products through technology licensing
- protecting valuable intellectual property and overcome environmental and energy regulatory hurdles

HIGHLIGHTS

- advising Sonnen on its entry into the Australian market, a landmark agreement with the South Australian government to supply batteries on a large scale under subsidy and assisting to establish all relevant distribution, transportation and sales contracts
- advising SwitchDin on its role in Horizon's DER pilot in Onslow and the Alice Springs Future Grid Project
- advising Infravision in relation to the Snowy Hydro project and SA/NSW Interconnector upgrade

CLAIM TO FAME

Largest shoe collection in the firm. Possibly the city
